AANYA SHARMA

SYNTHETIC CANDIDATE RESUME · DOCUMENT ID: TEST-CV-001

Email	aanya.sharma.test@example.com	**Location**	Noida, Uttar Pradesh
Target role	Junior Python Backend Engineer	**Experience**	Academic projects; no full-time role

Professional summary

Computer Science undergraduate focused on backend development and software testing. Built academic projects using Python, FastAPI, SQL, Git, and pytest. Familiar with PostgreSQL and Docker; currently learning Redis, CI/CD, and frontend integration. Seeking an entry-level backend engineering role.

Education

Bachelor of Technology (B.Tech), Computer Science
North Valley Institute of Technology · 2023–2027
Relevant coursework: Data Structures, Database Management Systems, Object-Oriented Programming, Software Engineering.

Technical skills

Skill area	Skills
Programming	Python, SQL, basic TypeScript
Backend	FastAPI, REST APIs, request validation
Data	PostgreSQL, relational schema design
Testing	pytest, unit tests, API integration tests
Tools	Git, Docker fundamentals
Learning	Redis caching, CI/CD, React fundamentals

Projects

1. Student Task API · Academic project · Jan 2026 – Mar 2026

- Built a REST API in Python using FastAPI for task creation, updates, and retrieval.
- Designed SQL tables and queried relational data; used PostgreSQL in a local development environment.
- Wrote pytest unit tests and API integration tests for validation and error cases.
- Used Git branches and pull requests; documented endpoints for a frontend teammate.

2. Containerised Notes Service · Academic project · Sep 2025 – Nov 2025

- Created a small Python service and ran it in Docker during local testing.
- Explored Redis caching in a proof of concept; this was a learning project, not a production deployment.

Additional information

Git: familiar with clone, branch, commit, merge, and pull-request workflows. Communication: project documentation and team demos. No professional employment or certifications are claimed in this synthetic profile.

EXPECTED RESUME CHECK

Core skill evidence: Python, FastAPI, REST APIs, SQL, PostgreSQL, Git, pytest, Docker. Preferred/learning evidence: Redis, CI/CD, TypeScript, React. The profile intentionally does not claim professional work experience.
